

Speaker Biography

David Todd

Head of Space Content, Seradata

David is Head of Space Content for Seradata, with overall responsibility for the SpaceTrak launch and satellite database. He is also Editor of Seradata's news service, Seradata Space Intelligence.

David has been a space analyst and consultant working on the SpaceTrak database since 1997 when he acted as the editor for the launch of the original version, then produced by Airclaims. Since then, David has worked in similar roles for Ascend, Flightglobal and Seradata. Most recently David has been instrumental in the development and marketing of latest version of the database, SpaceTrak3.

David holds three engineering degrees including a Master of Science degree in Astronautics and Space Engineering from Cranfield University. David also holds a science teaching qualification. During his Engineering degree studies the University of Salford, David won the British Airways prize for Air Transport Engineering and a Guinness Peat Aviation Fellowship. David is a life member of the American Institute of Aeronautics and Astronautics and a Fellow of the British Interplanetary Society.
